DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With respect to claims 1-2, 5, 8-14, the term “three-dimensional feature portion” fails to particularly point out the invention limitation and renders the claims indefinite and vague.

Further, claim 1 fails to define a complete semiconductor laser structure and does not clearly recite the location of “a region” different from the light emitting region.

With respect to claims 3-4, it is not clear what exactly the term “at part of the portion” is referred to.

The remaining claims are dependent on the above rejected claims and therefore are also rejected.
